Footnotes

1. IESNA Type V Short distribution
2. Uplight mount
3. Uses 80 LED size with two blanks in outside positions
4. Uses 100 LED size with two blanks in outside positions
5. Color temperature per fixture; minimum 70 CRI
6. Driver operates at 525mA instead of the standard 350mA providing a higher lumen output and a shorter life
7. Available on fixtures with 40–120 LEDs
8. Control by others
9. Refer to dimming spec sheet for availability and additional information
10. When code dictates fusing use time delay fuse
11. Not available when UH voltage is selected
12. Refer to multi-level spec sheet for availability and additional information
13. Not available with multi-level options
14. Must specify voltage other than UL or UH

General Description

Slim, low profile, easy mounting design. Luminaire sides are rugged cast aluminum with integral, weather-tight LED driver compartments and high performance aluminum heatsinks specifically designed for LED lighting application. Uplight fixture is supplied with a heavy gauge steel mount bracket and convenient anchoring holes. Mounting bracket is provided with holes to accommodate four (4) 3/8" or four (4) 1/4" bolts (by others). The weather-tight J-Box is designed for through-wiring and wet location installations. Five year limited warranty on fixture.

Electrical

Modular design accommodates varied lighting output from high power, white, 6000K (+/- 500K per full fixture), minimum 70 CRI, long life LED sources. 120–277V 50/60 Hz, Class 1 LED drivers are standard. 347–480V 50/60 Hz driver is optional. LED drivers have power factor >90% and THD <20% of full load. Units provided with integral 9kV surge suppression protection standard. Surge protection tested in accordance with IEEE C62.41.2 and ANSI standard 62.41.2.

Testing & Compliance

UL listed in the U.S. and Canada for wet locations and enclosure classified IP66 per IEC 529. Consult factory for CE Certified products. RoHS compliant. International Dark-Sky Association approved.

Finish

Exclusive Colorfast DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable silver powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Bronze, black, white and platinum bronze powder topcoats are also available. The finish is covered by our 10 year limited warranty.

Fixture and finish are endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117.

Patents

U.S. and international patents granted and pending. BetaLED is a division of Ruud Lighting, Inc. For a listing of Ruud Lighting, Inc. patents, visit www.uspto.gov.

Field-Installed Accessories

Photometrics

Independent Testing Laboratories certified test. Report No. ITL63747. Candlepower trace of 6000K, 120 LED Type V Short area luminaire with 11,325 initial delivered lumens operating at 350mA. All published luminaire photometric testing performed to IESNA LM-79-08 standards.

Isofootcandle plot of 6000K, 120 LED Type V Short area luminaire at 15' A.F.G. Luminaire with 11,500 initial delivered lumens operating at 350mA. Initial FC at grade.
